## President Will Visit His Mother

Flying to State Friday to Remain Until Sunday, He Tells Reporters

WASHINGTON, Sept. 12—(P)—President Truman will fly to Missouri Friday to visit his mother and the homefolks at Kansas City and Independence.

The White House announced the president will leave here at 12:30 p.m. Central War Time Friday from the National airport, arriving in Kansas City about 6:25 p.m., Central War Time.

He will return to Washington Sunday, arriving about 5:50 p.m., Central War Time.

The chief executive, traveling in the presidential C-54—the "Sacred Cow"—will give Senate Majority Leader Barkley (Ky) a lift to Paducah. Barkley has a weekend speaking engagement in his home state.

The president will pick up Barkley again on the return trip Sunday, flying him back to Washington.

### Another Stop

On the Friday trip the president also will stop at Scott Field, Ill., where Miss Reathel Odum, Mrs. Truman's secretary, will leave the party to start a vacation at her home nearby.

Mrs. Truman will accompany the president to Independence, where she will remain for a brief vacation with her daughter, Margaret. The latter will not return to Washington until late October to resume her studies at George Washington university.

### Newsmen In Party

Ross announced arrangements for 15 newspapermen, radiomen and photographers to go along with the president in a second C-54 plane.

Here is the schedule for the trip as announced by Ross:

Leave Washington airport Friday at 12:30 p.m. CWT; arrive Paducah 3:50 p.m., CWT; arrive Scott Field, Ill., 4:50 p.m. CWT; arrive Kansas City 6:25 p.m. CWT.

The president and Mrs. Truman will drive to Independence where they will remain Friday and Saturday nights.

The departure calls for the plane to leave the Kansas City airport at 1:45 p.m., CWT, Sunday.

Ross said no decision had been made on an invitation for the president to attend a V-J celebration in Philadelphia late this month or early next month.

### To Visit Warm Springs

Mrs. Alvin J. Accola of New York, an old friend of the Truman family and a former resident of Independence, will fly the round trip with the presidential party.

Press Secretary Charles G. Ross announcing the arrangements, also said the president will visit Statesville, N.C., November 2, to address an adjourned session of the North Carolina state senate and go from there the next day to Atlanta to attend the Georgia Tech-Duke football game.

He will have lunch Sunday, November 4, with the patients of the Warm Springs, Ga., foundation.

"That is as far as the schedule goes," Ross asserted.

He expressed belief the southern trip also would be made by plane but said it wasn't definite.

## Lions Discuss Memorials

The Sedalia Lions club held its regular noonday meeting today at the Bothwell hotel, holding a round table forum regarding Memorials in Sedalia, and a discussion of the proposed recreational center which the club first brought into discussion several months ago.

President Adolph Glenn presided over the meeting.

T. R. Snow, new manager of the Firestone store in Sedalia was a guest of A. R. Gardner.

Plans for a hayride for members of the Lions and their families were announced for Thursday, September 20.

### Truman Tells Reporters They Must Judge His Direction By His Acts

WASHINGTON, Sept. 12—(P)—President Truman today laughed off attempts of reporters to persuade him to specify whether his administration is heading either to the left or the right.

He told questioners at his news conference that they would have to judge the direction in which he was heading by his acts.

### Sergeant Had Reason for Aiding Tojo

YOKOHAMA, Sept. 12—(P)—A lanky Pennsylvania mess sergeant, John A. Archinal of Allentown, volunteered the type B blood which was used for ex-premier Hideki Tojo's first whole blood transfusion today—and explained:

"I'm doing this so he can get his just dues and suffer for the time (17 months) he made me spend in New Guinea."

Afterward Capt. Roy Gold, Montreal, Canada, army medical officer, reported Tojo's condition as "very satisfactory."

Tojo didn't say anything. He just lay with his eyes closed and his legs comfortably crossed—his feet sticking out from beneath the covers.

### Radio Report 'Cliff' Connor Is Liberated

#### Said To Be On Way Home From Jap Prison Camp

A radio broadcast heard by residents of La Monte Tuesday stated that Dennis Clifford Connor, son of Mr. and Mrs. James H. Connor, route two La Monte, had been liberated from a Japanese prison camp among others and was on his way home.

Of their design for the federal government, the leaders said in part:

#### Want Bureaus Abolished

"We believe that all federal bureaus created to aid in the war effort should be abolished; that powers delegated to the executive department . . . should be returned to congress."

"We hold that federal taxes should be reduced immediately."

"We hold . . . that all men and women should have an equal opportunity to employment, regardless of race, creed or color."

"We firmly believe that our men in the armed services should be discharged and returned to their homes in the shortest time possible. We are absolutely against holding large numbers in the armed services for political or economic purposes."

"We believe in a large army and navy as a guarantee against aggression, but we believe that it should be made up of volunteers rather than draftees. We believe that a strong ROTC system is far better than forced military training."

#### For Full Production

"We believe in an economy of full production, as against the economy of scarcity. Full production and better distribution is the answer to the farm problem."

"We advocate the development of the potential water power of our streams. But we are opposed to any over-all authority . . . We believe that sovereign states should control any development within their borders."

For the state the majority party leaders said:

"We believe the state should recognize its responsibility to the servicemen and his family and . . . give them help in obtaining full benefits under the federal GI Bill of Rights."

"We advocate . . . a program of needed public works within the state—repairs, enlargements and betterments of eleemosynary and medical institutions that are state owned."

"We believe the state parks and public recreation centers should be properly maintained and supervised . . ."

#### To Develop Aviation

"We advocate adequate legislation to encourage the development of the aviation industry in Missouri . . ."

"We urge a complete redistricting of the state."

"We believe a further reduction of taxes should be made by the 3rd general assembly."

They also suggested that the assembly, if it deemed public works necessary to easing unemployment should launch a public works program involving expenditure of \$40,000,000 at schools, colleges and universities.

### Mother Didn't Spare the Rod

DES MOINES, Sept. 12—(P)—A mother insisted in municipal court that it was her duty to whip her child "for telling a fib" and the court gave a \$10 suspended fine to a neighbor who interfered.

The mother, Mrs. James Easley, accused Eugene Johnson of disturbing the peace by shouting through her window while she was whipping her son with a thin board.

"It's about time somebody rewarded a mother who has the courage to punish her child," asserted Assistant County Attorney Anthony T. Renda. "With all this juvenile delinquency it's a good thing to let the country know about a woman who uses corporal punishment on her children."

Johnson said the child's screams were disturbing his small daughter, who was seriously ill.

## Republicans In Statement Of Principles

#### Put Their Peace Time Goals in Black and White

JEFFERSON CITY, Sept. 12—(P)—Leaders of the Republican majorities in both houses of Missouri's general assembly made public today their "statement of principles," putting their peace-time goals in black and white.

They called for citizens to forget their hereditary party alignments and vote to "keep the system of government under which we have risen to be the greatest nation on earth."

Public works at state institutions and a \$40,000,000 building program for the University of Missouri and other schools were advocated for the state, along with legislation to aid returning veterans, promote aviation and develop state parks.

In their federal recommendations the GOP leaders went on record for a reserve officers' training program instead of compulsory military training, reduction of federal costs and discharge of servicemen as soon as possible.

Of their design for the federal government, the leaders said in part:

#### Want Bureaus Abolished

"We believe that all federal bureaus created to aid in the war effort should be abolished; that powers delegated to the executive department . . . should be returned to congress."

"We hold that federal taxes should be reduced immediately."

"We hold . . . that all men and women should have an equal opportunity to employment, regardless of race, creed or color."

"We firmly believe that our men in the armed services should be discharged and returned to their homes in the shortest time possible. We are absolutely against holding large numbers in the armed services for political or economic purposes."

"We believe in a large army and navy as a guarantee against aggression, but we believe that it should be made up of volunteers rather than draftees. We believe that a strong ROTC system is far better than forced military training."

#### For Full Production

"We believe in an economy of full production, as against the economy of scarcity. Full production and better distribution is the answer to the farm problem."

"We advocate the development of the potential water power of our streams. But we are opposed to any over-all authority . . . We believe that sovereign states should control any development within their borders."

For the state the majority party leaders said:

"We believe the state should recognize its responsibility to the servicemen and his family and . . . give them help in obtaining full benefits under the federal GI Bill of Rights."

"We advocate . . . a program of needed public works within the state—repairs, enlargements and betterments of eleemosynary and medical institutions that are state owned."

"We believe the state parks and public recreation centers should be properly maintained and supervised . . ."

#### To Develop Aviation

"We advocate adequate legislation to encourage the development of the aviation industry in Missouri . . ."

"We urge a complete redistricting of the state."

"We believe a further reduction of taxes should be made by the 3rd general assembly."

They also suggested that the assembly, if it deemed public works necessary to easing unemployment should launch a public works program involving expenditure of \$40,000,000 at schools, colleges and universities.

### Mother Didn't Spare the Rod

DES MOINES, Sept. 12—(P)—A mother insisted in municipal court that it was her duty to whip her child "for telling a fib" and the court gave a \$10 suspended fine to a neighbor who interfered.

The mother, Mrs. James Easley, accused Eugene Johnson of disturbing the peace by shouting through her window while she was whipping her son with a thin board.

"It's about time somebody rewarded a mother who has the courage to punish her child," asserted Assistant County Attorney Anthony T. Renda. "With all this juvenile delinquency it's a good thing to let the country know about a woman who uses corporal punishment on her children."

Johnson said the child's screams were disturbing his small daughter, who was seriously ill.

## Senator Hart Believes in Ozarks Future

### Takes Senators On Bus Tour Of Area Tuesday

By George Sitterley

JEFFERSON CITY, Sept. 12—(P)—Missouri's Ozarks region has a great future, State Sen. H. B. Hart (R) of Versailles believes, and in trying to prove it he took 32 senators and their guests on a bus tour of the area yesterday.

He showed them the Hurricane Deck bridge—a toll bridge—which he would like to have the state purchase from the Federal Reconstruction Finance Corporation, holder of the bonds.

The bridge, costing in the neighborhood of \$500,000, hasn't paid its bond interest since it was built, but Senator Hart said it would if the highway department would pave state highway No. 5.

It is one of the toll bridges in the state which would be bought by the highway department if Hart's plan is adopted.

Along with the bridge and the highway, Bagnell dam and resorts, Hart showed off two airports—the nation's first "airpark" at Eldon and a privately owned field at Versailles, the senator's home town.

#### Just a Landing Place

An airpark, he explained, is really just an unpretentious but adequately level place for small planes to land. The community it serves has no aspirations for a commercial airline; it just wants to see that air flier pilots can drop in, gas up, get minor repairs and shelter their planes while they tuck around on business or pleasure.

The now building \$25,000 Eldon airpark has already enticed a number of tourists and even some business to Eldon, Mayor J. R. Reed told the visitors. A local factory is expanding and the city has erected a building to house another firm which will hire several hundred employees. It expects more business than ever from tourists and sportsmen.

The president announced the appointment of former senator Bennett Champ Clark of Missouri to be an associate justice of the U. S. Court of Appeals for the District of Columbia, succeeding Thurman Arnold.

#### Other Appointments

He appointed E. Barrett Prettyman of Washington and Wilbur K. Miller of Owensboro, Ky., to the two other vacancies on the appellate court in Washington. Prettyman succeeds Justin Miller and Clark replaces Fred M. Vinson, now secretary of the treasury.

The president said he had not yet decided on a successor to Justice Owen J. Roberts, who retired from the supreme court.

Other appointments announced by the president were those of Alexander Holtzoff of Washington as associate justice of the District of Columbia district court and John J. O'Connell of Pittsburgh as a member of the U. S. third circuit court of appeals.

Senators Hart and Ted Nease (R) of Brumley on the other side of the Lake of the Ozarks sponsored the bus trip through the area.

They said they wanted their colleagues to see the lake area's possibilities which, they said, could be enhanced if the state spent a little money to improve and promote the region as a recreation and vacation spot.

### Banks Meeting On October 17

The bankers of this and the other counties in Group IV of the Missouri Bankers Association will hold their annual group meeting this year in Kansas City on Wednesday, October 17, according to James P. Hickok, president of the Manufacturers Bank and Trust Co., St. Louis, who is president of the Missouri Bankers Association.

Edwin C. Houx, vice-president and cashier Peoples National bank, Warrensburg, and Frank Blair, Jr., assistant cashier Bank of Belton, chairman and secretary respectively of this group, have charge of the meeting and program.

#### Cow Killed By Car On Highway Fifty

A cow was killed about 11 o'clock Tuesday night on Highway 50 between the State Fair boulevard and the Missouri Pacific State Fair spur tracks. The cow was struck by a driver whose car evidently was badly damaged.

State highway employees went to the scene and removed the dead animal from the highway.

#### Bothwell Hospital Notes

PARIS, Sept. 12—(P)—The Duke and Duchess of Windsor will arrive at Le Havre Sept. 22 aboard the United States lineship Argentina and will proceed immediately to Paris, where their luxurious city home is being prepared.

Conrad Errol Stephens, route 4, Sedalia, dismissed.

# Expect Ruling On Rationing Of Meat Soon

**Housewives Would Like to Plan One Way or Another**

By Marvin L. Arrowsmith

WASHINGTON, Sept. 12—(P)—The question of how soon meat rationing will end moved nearer a showdown today.

As housewives began buying all varieties of cheese without stamps, government food officials predicted an early decision on whether meat can go off the ration list:

1. Before month's end.
2. By October 1, or
3. At some later date.

The possibilities were that wide open as the matter became a first order of business for Secretary of Agriculture Anderson.

Due back in the capital shortly from a vacation at his home in Albuquerque, N. M., Anderson will be asked for something definite on meat—quickly.

Among the most pressing requests for a speedy decision is one from OPA Administrator Chester Bowles. Bowles' agency soon must start printing October point value charts if rationing is to be continued next month.

**Announcement Problematical**

Bowles conferred yesterday with Acting Secretary of Agriculture J. E. Hutson, telling him that a quick decision would be a good thing.

If the decision is to terminate meat rationing by October 1 or sooner, there probably will be no announcement before the eve of the effective date. OPA says announcements well in advance make it difficult to enforce rationing regulations in the meantime.

On the other hand, a decision to terminate the program at an unspecified later date probably would be announced immediately so that housewives and butchers could settle down to a few weeks more of rationed sales.

"It all depends on livestock marketings during the days and weeks ahead," said a spokesman for Hutson.

Cattle marketings are running considerably ahead of a year ago, but food officials are doubtful whether the total meat supply is sufficient to support unrestricted buying. They recall that when most meat was removed from rationing in May, 1944, distribution difficulties developed quickly in some parts of the country, despite seemingly good overall supply.

## Mrs. Ruby L. Williams Died Tuesday Night

Mrs. Ruby L. Williams, wife of W. B. Williams, died at her home, 317 East Johnson, Tuesday evening. She had been a resident of this city for more than 40 years.

Surviving are her husband, one daughter, Mrs. Rudolph Lightfoot of Chicago, Ill., one sister, Mrs. Florence Hodges of Quindaro, Kas., three brothers, Silas Moorehead of Sweet Springs, William Moorehead of Lexington and John L. Moorehead of Detroit, Mich.

Funeral arrangements have not been completed.

**A Mean Trick**  
MIAMI, Fla., Sept. 12—(P)—Sweepstakes operators at the OPA office here are willing to pay above-ceiling prices to put their hands on the practical joker who advertised a cozy, palm-shaded house for rent—and gave the OPA telephone number.

Score to date: 400 calls from frantic homes.

## Personals

Mrs. Ada Howard of El Paso, Texas, is here for a visit with her sister, Mrs. C. T. Gorrell, 1502 South Moniteau avenue.

Earl C. Doolittle is here for a brief visit at the home of Mr. and Mrs. Harvey L. Keens, 1008 South Massachusetts avenue, en route from his home in Los Angeles, Calif., to the east. Mr. Doolittle is a former Sedalian.

Mr. and Mrs. E. T. McKinney and infant daughter, Mary Louise, have returned to their home in Granite City, Ill., after a visit with Mrs. McKinney's parents, Mr. and Mrs. W. J. Gold, 1005 West Third street.

Mrs. Bill Pagett, who has been in Washington, D. C., the past few years, has arrived home and is with her parents, Mr. and Mrs. J. Lamm, Route 5, Sedalia. Her husband has been sent overseas.

Cpl. John M. Poundstone returned Wednesday morning to his home in Washington, D. C., after a week's visit with his parents, Mr. and Mrs. O. B. Poundstone, 402 West Sixteenth street. He was accompanied by his mother who will spend several weeks in getting acquainted with her new granddaughter, Patricia Maynard Poundstone, and visiting other relatives in and near Washington. Cpl. Poundstone, recently returned from overseas, will report soon to Camp Meade, Md., for reassignment to duty.

Miss Mary Alice Donahoe left Monday to resume her studies at St. Scholastica college, Atchison, Kas., where she is a senior, after spending the summer in Chicago, Ill. Miss Donahoe, the daughter of Mr. and Mrs. M. J. Donahoe, 818 West Seventh street, is majoring in sociology.

Mr. and Mrs. J. H. Biddison of Grand Field, Okla., are here for a short visit with Mr. and Mrs. Ray Hunt, 1405 West Third street. They will go from here to Port Lavaca, Tex.

Mrs. F. A. Diefenbach formerly Miss Jane Laupheimer, who is visiting her brother and his wife, Mr. and Mrs. Lawrence Laupheimer in New York, will arrive soon to be with her mother, Mrs. Rose Laupheimer, 305 West Fourth street, until her husband, who is in service, receives his honorable discharge which is expected to be soon.

Lt. and Mrs. George Arbuckle, 408 South Summit avenue, are spending this week in Kansas City. Lt. Arbuckle recently arrived home from overseas after serving in North Africa, Sicily and Italy. He is now home on leave.

Mr. and Mrs. Walter Lower and daughter Ruth, Lt. and Mrs. George Arbuckle and Mrs. William Edwards went to Lebanon Sunday where they visited First Lt. and Mrs. Tommy Sanders. Lt. Sanders recently arrived home from overseas. He and Lt. Arbuckle trained together in the 8th division.

Miss Lucine Perriague of Kansas City spent the week-end with Miss Betty Jo Tharp, Route 5, Sedalia.

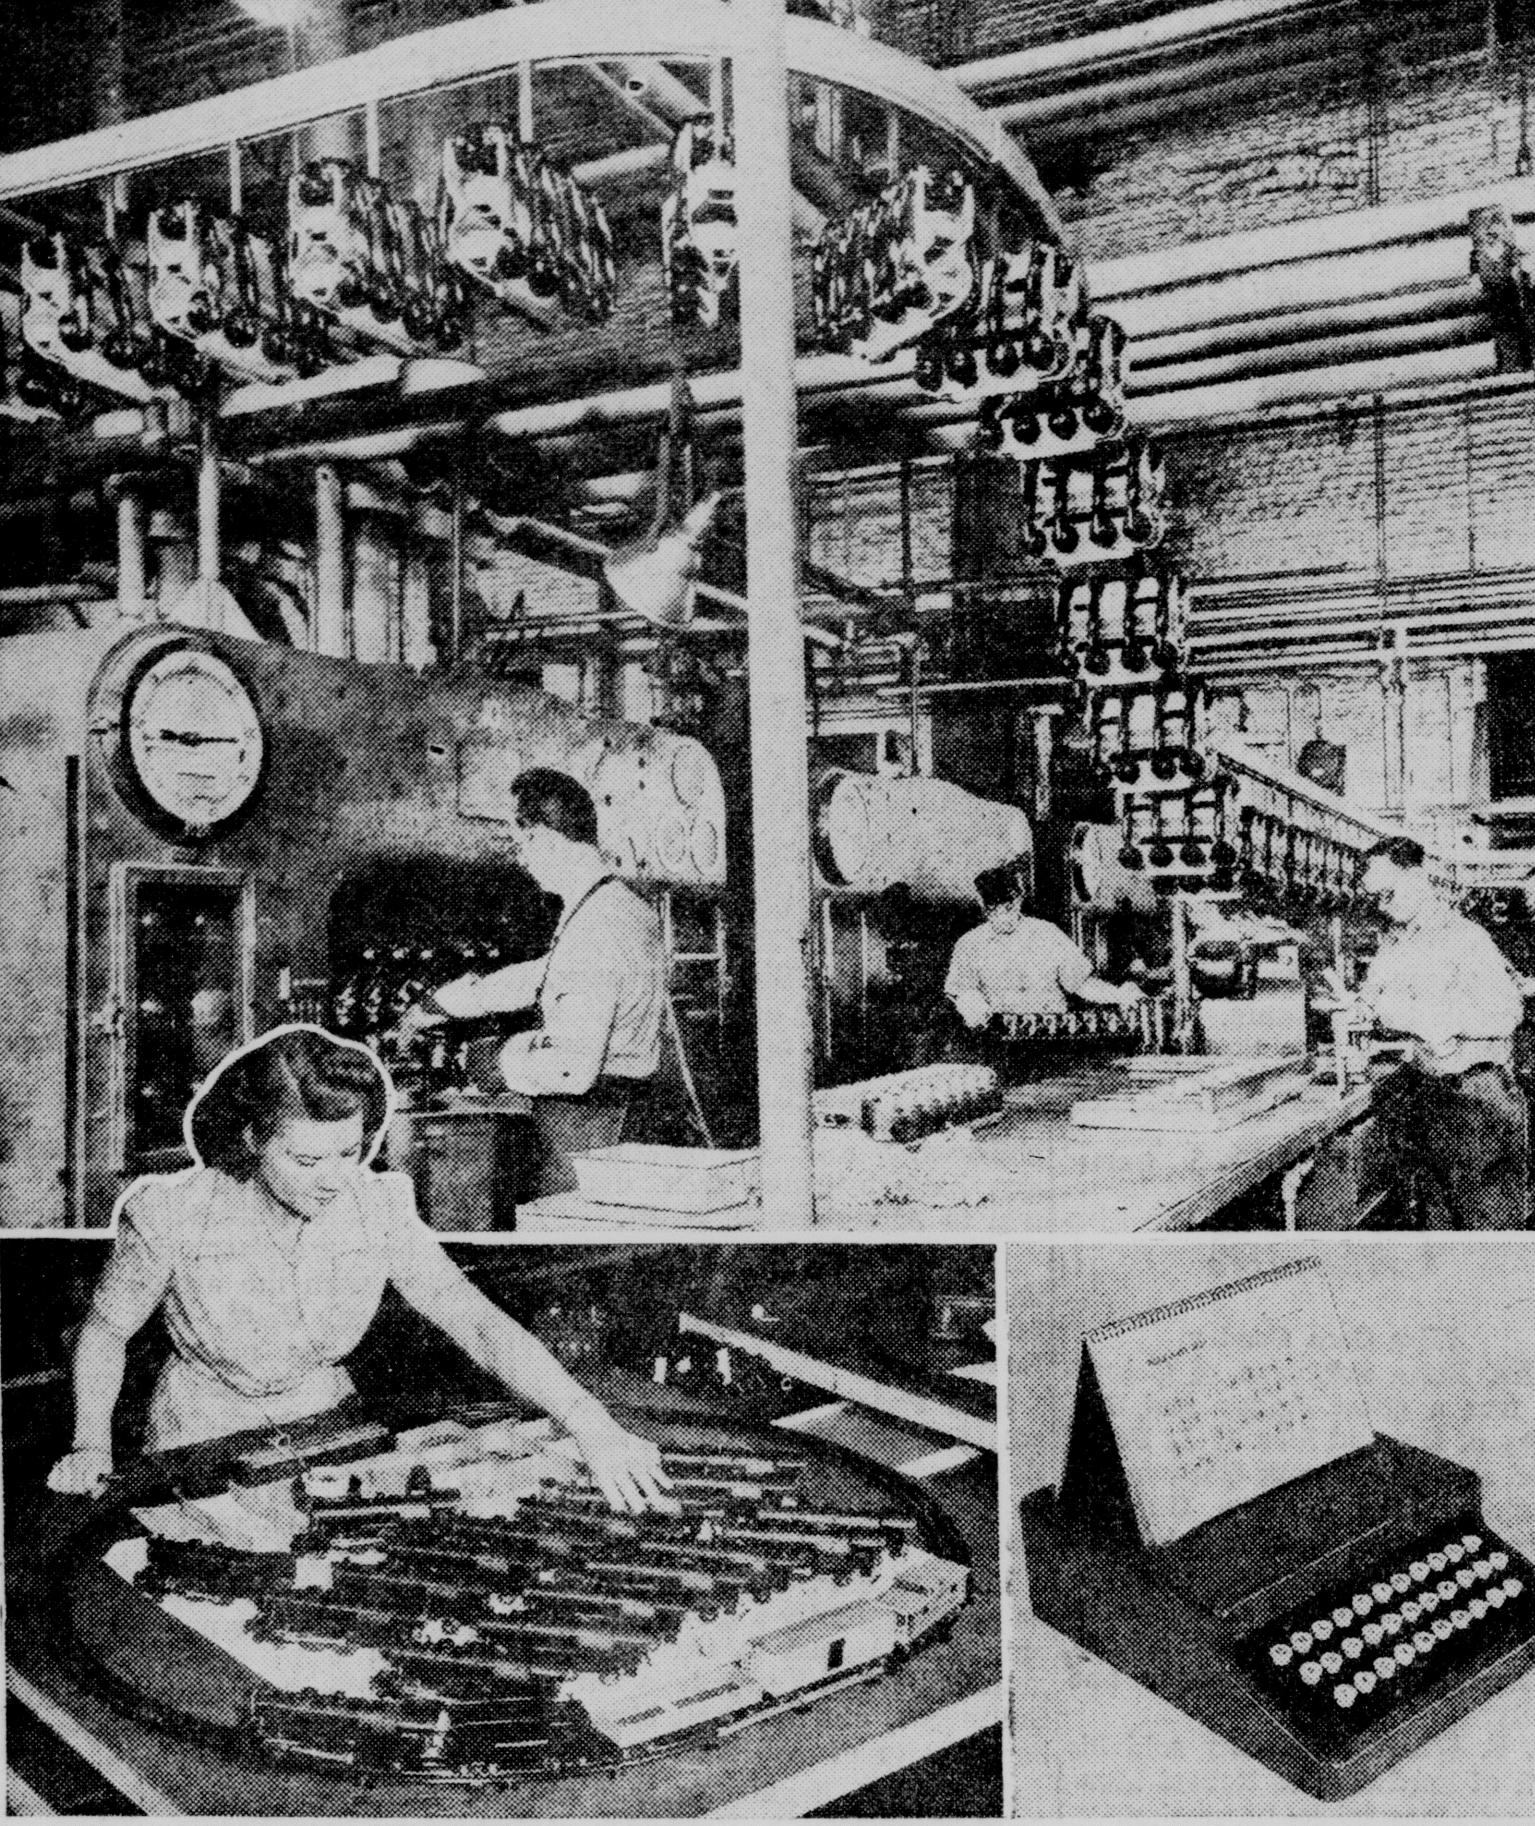

Mrs. William Pulliam of Kansas City is here to be with her grandmother, Mrs. L. Perriague, 2500 East Broadway, who is ill.

Miss Alta Kenagy, of Denver, Colo., is spending a few days with her sister, Mrs. C. A. Miller and family, 724 West Fourth street.

WAC Sgt. Maro Hesse, who is stationed at Tindle Field, Fla., left Tuesday after a visit of several days with Miss Bea Gentry, 317 West Sixth street. Her home is in Springfield, Mo. Miss Gentry and Sgt. Hesse spent Sunday and Monday in Columbia.

Normal cruising strata for modern transports is between 6000 and 14,000 feet.

## Now You'll Believe the War's Over

If you've tried to get a new telephone within the last few years, you'll know that the war MUST be over when you see them coming off the production line in quantity, as in the top photo. Western Electric's Hawthorne, Ill., plant is producing 100,000 a month, with an increasing proportion allotted for civilian use. Good news for Junior (and probably Dad) is seen in the photo at lower left, taken at the A. C. Gilbert plant, New Haven, Conn. Toy electric trains are in production and will be available for Christmas, although in limited quantities. Something new is the gadget at right, which looks like a typewriter, but is a musical instrument called a "typetune," recently invented by Alexander Rose, New York City court reporter. It has a standard typewriter keyboard, works on the piano principle, and when you "write" on it, tunes come out.

## Truman's Political Future is General Topic of Discussion

By James Marlow

WASHINGTON, Sept. 12—(P)—

The prophets are at it again. Now they're predicting President Truman's political future.

It goes something like this:

1. Mr. Truman's chances for reelection in 1948 depend upon what happens to the 21-point program he gave Congress last week.

2. Upon passage of the program the Democrats' chances for winning the 1946 and 1948 congressional elections.

That sounds odd, for these reasons:

1. It's too soon to be positive about the effect of the success—or failure—of the Truman program upon him or his Democrats.

2. Too many things can happen between now and election time to change the voters' thinking whether the program goes through in full or not.

3. Mr. Truman's popularity is still riding wide. This alone, if he retains it, will be a big factor in the future of himself and his party.

His program cuts two ways. Some of it is to solve immediate problems. Some is long-range, like full employment, housing, public works.

**Employment Is Key**

Perhaps failure of Congress to put through the program will affect this country critically. But when? Soon enough for it to affect the voters' thinking in the 1946 or 1948 elections?

The key to our prosperity is full

employment, or rather a lack of widespread unemployment.

Unemployment is growing now. It will continue, for a while at least.

Then, economists inside and outside government think, employment should grow as industry gets going.

The point is: How long will it take full employment last?

If it starts before the 1946 elections and lasts through 1948 it undoubtedly will do Mr. Truman and his Democrats a lot of good.

The committee for economic development (CED), a nationwide organization of businessmen, has made a survey of unemployment prospects. It predicts:

**Survey Results**

Postwar prosperity with "substantially full employment" beginning in September, 1946. (The congressional elections come in November, 1946.)

Secretary of Commerce Wallace says a survey by his department "generally" confirms this prediction, which CED says means 53,000,000 jobs for people.

(Wallace, however, believes this country will need jobs for about 60,000,000 people in 1950.)

Granted that CED is right, that

they'll be fairly full employment next fall. Two things can happen even to people with jobs and money in their pockets:

1. They may think it's due to Democratic magic, feel grateful, and vote the Democrats in again.

2. Or by then they may feel it's the Republicans' turn that the Democrats have been in long enough.

The body will arrive in LaMonte Friday morning and will be taken to the Parker home.

**Mrs. Margaret Taylor**

Funeral services for Mrs. Margaret Taylor, who died at Fresno, Calif., Saturday, September 8, will be held at the LaMonte Christian church, at 3 o'clock Friday afternoon, the pastor, the Rev. Harvey Smith to officiate.

Burial will be in the LaMonte cemetery.

Mrs. Margaret Allen Taylor was born in Danville, Ky., in July, 1859. In 1887 she was married to George W. Taylor, who preceded her in death in 1904. Six children were born to the union, five of whom survive as follows: Elbert A. Taylor, Kansas City; Farris O. Taylor, Kansas City, Kas.; Elton Taylor, Fresno, Calif.; Mrs. Sam Pester, Tulare, Calif.; Mrs. E. D. Guthrie, LaMonte. A daughter, Mrs. C. P. Spillers died July 20, 1944.

The body will arrive in LaMonte Friday morning and will be taken to the Parker home.

**Mrs. Ella Criol**

Mr. and Mrs. A. L. Wilson, 918½

South Kentucky avenue, were

called to Memphis, Mo., today by

the death of Mrs. Wilson's mother,

Mrs. Ella Criol, who died at her

home there this morning.

Mrs. Wilson is manager of the Thrifty shop.

**Christian Neitzert Service**

Funeral services for Christian

Neitzert, who died at his home

near Camp Branch Monday morn-

ing, were held at 2:30 o'clock this

afternoon at the Gillespie funeral

home, the Rev. Nelson Reagan of

officiating with Rev. J. H. Maxwell

assisting.

Pallbearers were Earl Arnett,

Morris Curtis, C. W. Chappell, P.

S. Read, Harry Dexheimer and

Vernon Glenn.

F. E. Helman and Mrs. Harold

Hausam sang, "In the Sweet By

and By," and "Safe in the Arms

of Jesus."

Burial was in Memorial Park

cemetery.

**Dorothy Lou Corley**

Word has been received in Se-

dalia of the death in Mokane of

Dorothy Lou Corley, three and

one-half years old, daughter of

Mr. and Mrs. L. C. Corley, former

Sedalians.

The child died of lockjaw Sun-

day evening and funeral services

and burial were held in Mokane

at 2 p. m. Monday.

Besides her parents, a sister,

Laura Ann Corley, survives.

**Mrs. Florence A. Deuel Service**

Funeral services for Mrs. Flor-

ence McClanahan A. Deuel, who

died at her home 118½

West Third street Monday morn-

ing were held at 4:00 o'clock this

afternoon at the Gillespie funeral

home with Rev. Hallie Rice, pas-

tor of the East Sedalia Baptist

church, officiating.

Pallbearers were Walter Love-

land, C. A. Wilde, J. L. Evans,

Emmett Vaught, Philip Pfeiffer,

and T. O. Sisson.

Mrs. Roy Kirchhofer and Mrs.

W. L. Lewis sang, "Rock of Ages"

and "The End of a Perfect Day."

Burial was in Crown Hill ceme-

tery.

**J. L. Perrin Service**

Funeral services for Joseph

Lloyd Perrin, who died at his

home five miles west of Sedalia

## Foreign Secret Service in Peacetime Proposed as Safeguard Against Wars

When Nazis entered General Eisenhower's "war room" to accept surrender terms they faced huge maps which lined the walls, showing disposition of all German troops. Knowledge of enemy strength, gained by expert secret agents, aided in shortening the war. Now military strategists urge continuation of overseas as Secret Service.

By THOMAS M. JOHNSON  
NEA Military Writer

WASHINGTON — Mussolini once jibed: "The American Secret Service must be the world's best, for no one can discover it." He meant, of course, that we had none.

So that we will never again be caught napping, as we were in pre-war years, Maj. Gen. William J. Donovan has recommended the establishment of the first peacetime foreign Secret Service in the United States.

In resigning as Director of the Office of Strategic Services, General Donovan wrote President Truman requesting an opportunity to present his views on an organization to carry on Secret Service activities abroad. He recommended that it should link Army and Navy Intelligence branches, incorporating some of the existing personnel and facilities of the O. S. S.

Few Americans realize the importance of the role played by Army and Navy Intelligence branches and Secret Service men in hastening the victorious end of World War II. In addition to the aboveboard war of land, sea and air, the United States fought an underground war of spies, propaganda, and modern science.

Blinded By Blackout

Our Government depended for information about Hitler's armament largely on a few attachés—but did not quite believe them. Our attacks in Japan were blindfolded by her blackout of information, especially about her navy and air forces.

Secret agents sent to piece out the attache's imperfections seldom came back. Moreover, the small number of secret agents were so underpaid that one group which penetrated secret mandated Pacific islands refused to work any more at such risk for so little. They accused their paymaster of holding out.

We were not only squeamish about doing what every other great power does to find out what goes on, but we were picayune in allotting payment for services received. Congress gave the Navy little enough for such work. The Army received much less—\$8,000 for a full year, not long before Pearl Harbor.

Both the Army and Navy were frustrated in their efforts to obtain radar listening devices in pre-Pearl Harbor days because of insufficient appropriations. Jap bombers virtually smashed General MacArthur's air force, because Fifth Columnists had sabotaged the only Manila air raid warning system. The Army had asked for several—in vain.

The same niggle left Naval Intelligence so short of radio-interception equipment that for some time it could not adequately pick up messages the Japs were interchanging. These messages were of priceless value in revealing Nipponese plans and intentions. Moreover, we lacked a sufficient number of code and cipher experts.

We Fooled Hitler

Today we have plenty of operatives and equipment. We have built the greatest Intelligence and Secret Service we have ever had. They have done well, not only defensively against enemy espionage and sabotage, but offensively in a variety of operations.

Here's just one example, which dates back to the dark dawn when we first landed in north Africa. Germany's Master Spy, Admiral Canaris, had warned that we would, but Hitler disagreed. The Gestapo had told him we would land at Dakar. And who told the Gestapo? An American agent, playing a double role. Our landing was aided by the Casablanca harbormaster, kidnapped by other American agents. We enlisted tribesmen to keep potentially dangerous Spanish troops busy.

Presently other Americans, recruited from New York's cosmopolitan population and specially trained in one of several unadvertised "schools," descended by parachute to help Partisans in Italy and Yugoslavia. Later others, in history's biggest underground operation, prepared France for D-Day by sabotaging

German unit facing us. Our surveillance propaganda, by pamphlet, radio and amplifier, effectively reduced German strength.

In Asia our Intelligence saved our Australian base in great naval battles, locating Japanese ships that never knew what hit them. It won our base in the Philippines by daring spy-operations, using submarine and radio.

Need Scientists

Intelligence today depends less upon "spies" than upon scientists: Geographers, map-makers, weather forecasters, linguists, cryptographers, aerial photographers. Pearl Harbor caught us with a bare corporal's guard of them, with a weak platoon in reserve.

Priceless experience and tested methods, gained through the war years, will largely be scrapped if

we have our usual post-war relapse into complacent apathy on defense matters. Intelligence is ranked as a No. 1 defense matter. In this contracting world of air-power we must know earlier than ever before of the first preparations by anyone for aggression.

The new world organization must depend largely upon the major powers—including the United States—for military Intelligence. Abroad, our strategists insist, we shall need larger peace-time personnel than in the past,

including Secret Service agents of high ability and character.

The best defense-insurance of all is to discover any potential menace to peace while it is still only potential—and can still be smashed.

Two and one-half million children are transported daily by bus to and from school in the United States.

## Estepp Wins From Meeker On Low Blow

'Big Ben' Morgan Beat Schnabel With Two Straight Falls

Marshall Estepp won his match with Jerry Meeker, at the wrestling match show sponsored by the Pettis County Post No. 16, American Legion, Tuesday night. But the wrestling postmaster from Sturgeon won the third fall when fouled by Meeker who struck him a low blow.

The main event in which Meeker who hails from Columbus, Ohio and Estepp met, proved to be a hair raising affair and kept the fans in an uproar from the time the bell tapped starting the match off until the awarding of the third fall was made by Referee Jimmy Atkinson to Estepp.

"Big Ben" Morgan the Hill Billy wrestler from Rogers, Arkansas, won two straight falls from Jack Schnabel of Detroit, the first in 18 minutes and 90 seconds. The match which proved to be more of a slugfest, angered the fans at Morgan who towered above Schnabel along with his 312 pounds of flesh against the 265 of Schnabel.

Morgan won his two falls using the back breaker, taking Schnabel and dropping to the mat and dropping Schnabel over his knee.

The opening event went the 30-minutes to a draw between Harold "Sonny" Myers of St. Joseph, and Calvin Reece, of Kansas City. Although Reece is just getting back into form after thirty-nine months of overseas service in the armed forces, kept on top of Myers throughout the match. Myers displayed more action in getting around the ring than his opponent, but the soldier didn't give the St. Joseph boy any chance in winning the fall.

In the Estepp-Meeker match, Estepp took the first fall in 10 minutes and 28 seconds. The Junior World heavyweight champion used his famous drop kick in subduing Meeker and when Meeker went to the mat, Estepp used the body smother.

The second fall went to Meeker who used a series of headlocks, and then a body smother. The time was seven minutes and 15 seconds. It was seven minutes and five seconds in the third fall time, that Meeker after being the victim of a drop kick raised up and slugged at Estepp. He struck the Sturgeon postmaster low and it was then the fall was awarded to Estepp.

Next Tuesday, matchmaker Gus Karras, and promoter Simon Kalis is bringing a team match to the local ring. A match which won favor among the fans at the closing show last summer. Karras announced Marshall Estepp and Harold "Sonny" Myers will oppose Ray Tillman of Muskogee, Okla. and Jerry Meeker, and they

## TUESDAY BASEBALL RESULTS

By The Associated Press

### National League

St. Louis 6, New York 5.  
Chicago 5, Boston 4.  
Pittsburgh 5-5, Philadelphia 4-1.  
Cincinnati 3-6, Brooklyn 4-1.

### American League

Detroit 5, Boston 6.  
Chicago 2, Washington 1.  
Cleveland at New York: rain.  
Only games scheduled.

American Association (Playoffs)  
Louisville 9, Milwaukee 1.  
St. Paul 2, Indianapolis 1 (ten innings).

should provide some interesting entertainment.

The team match will be for the best two falls out of three with one hour time limit.

The main event will feature "Big Ben" Morgan meeting Emir Badui, the Arabian wrestler, who appeared here last spring. Both bewhiskered should provide some thrilling moments for the fans.

## Sports Roundup

By Hugh Fullerton, Jr.

NEW YORK, Sept. 12—(P)—Ed Wright, the rookie who shut out the Cubs for Boston the other day, was discovered by Red Smith, the Cub coach, who got \$1,500 for his find. Wright may have pitched Red right out of a cut in the world series dough . . . Jimmy Johnston is broadcasting the news that he now is manager of Al Hoosman, who was heavyweight champion of the Pacific area before his discharge from the army. Hoosman is six feet five and weighs 210, which makes him about big enough to do everything Jimmy claims he can . . . The Army-Navy Dame basketball game, which would pack any indoor arena the way their football game does the Yankee stadium, will be played in the West Point Field House with no charge for admission.

Now they have lengthened their lead over Washington to two full games with 17 to play and only 13 more for the Senators. Although Trout has yet to beat Osie Bluege's contenders his brilliant September form is one of the big reasons for his club's success.

Trout's sparkling two-hit performance in Boston was his 17th success of the season. The triumph was made easier by Doc Cramer's three-run homer in the seventh inning. It was Detroit's eighth victory in 11 eastern starts with four in Philadelphia and five in Washington still to be played. The Senators dropped a discouraging 2-1 toughie to Chicago after taking a 1-0 lead into the ninth inning. The White Sox beat Johnny Niggeling with two runs in the ninth on only one single.

New York and Cleveland were washed out of their final meeting of the campaign and the other clubs were not scheduled. Only news from that quarter was Luke Sewell's retention as Brownie manager for 1946-47.

Although the American race is attracting most of the attention, the National has developed into a close battle again with St. Louis only 2½ games behind Chicago.

Hank Borowy, whose sale by the Yankees remains one of the big mysteries of the season, hurled his tenth complete game in as many starts for the Cubs, earning his eighth triumph in beating Boston by a score of five to four.

### Service Dept.

The air forces personnel distribution command football players are more than a trifle annoyed at the nickname chosen for them by a contest committee—"distributors". . . At least three big league clubs are angling for husky Dick Sisler, son of the old Browns' star, who batted .378 and drove in 60 runs in 52 games for the Bainbridge, Md., navy team this summer . . . barring further transfers, the Shoemaker, Calif., navy base should have this winter's top service basketball team with Bob Carpenter, Belus Snaawley, Gene Lockart, Red Holzman and Bob Ferrick from last year's two strong Norfolk clubs.

**House Votes to  
Unseat Borchers**

JEFFERSON CITY, Sept. 12.—(AP)—The Missouri House of Representatives unseated Rep. Earl C. Borchers (D) of St. Joseph tonight and gave his place to Lt. Lewis H. Wallace (R), declared winner of an election contest by two votes.

Wallace, wearing his naval lieutenant's uniform, was sworn in promptly by Speaker pro tem Murray Thompson as first district representative from Buchanan county, despite protests from Rep. Roy Hamlin of Marion county, Democratic floor leader.

Hamlin argued the house could not unseat a member by less than a two thirds vote but Thompson overruled his point of order. He held that the action was not an expulsion involving misconduct and that a bare majority was sufficient to adopt a committee report giving the election to Wallace.

Hamlin protested again as Wallace was on his way to the dais that he had not shown himself legally qualified to serve. He was overruled again and Wallace took the oath.

The new legislator planned to report back to duty at New Orleans to receive his navy discharge, expected within a few days. A former member of the house, he joined the navy after the 1943 legislative session.

The committee finding approved by the house was that Wallace won the election last November, 5,069 to 5,067. Borchers had been serving since last January on the strength of an 11-vote circuit court margin, but the committee threw out 16 of his votes and three of Wallace's as illegal.

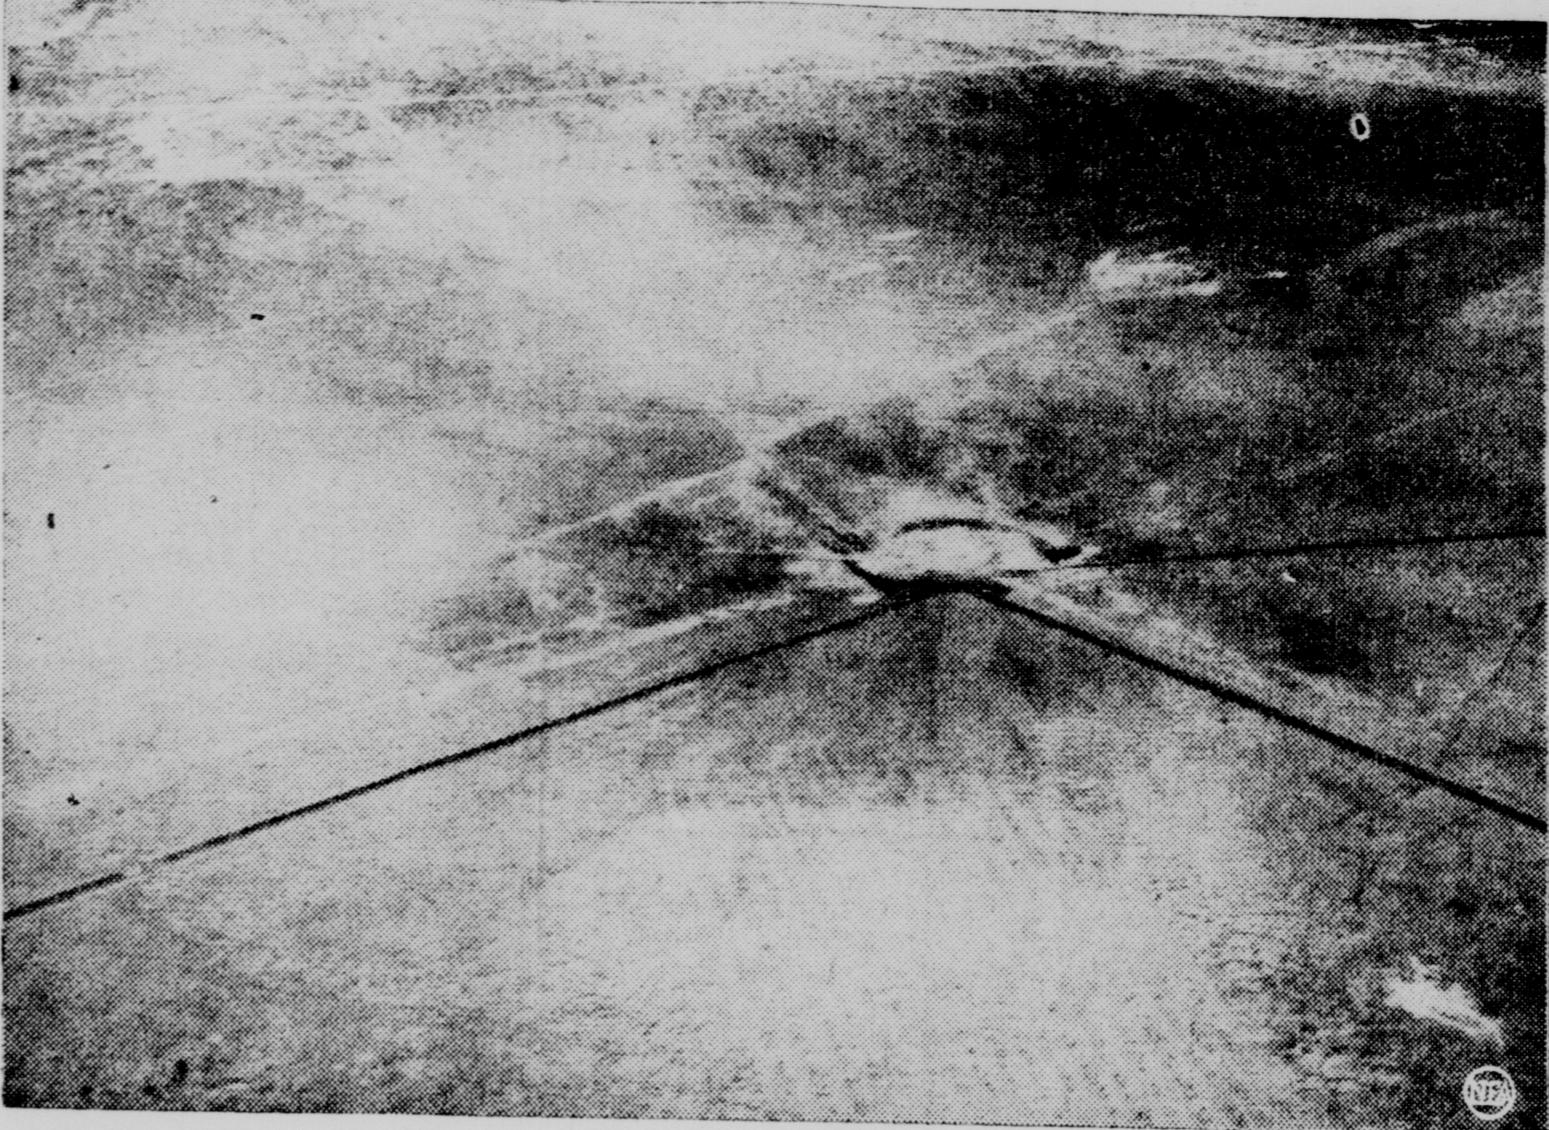

The final action unseating Borchers by a 74 to 61 tally was foreshadowed by an earlier vote rejecting, 63 to 74, a motion by Hamlin to dismiss the contest.

On both ballots the house split sharply along party lines, refusing to be swayed by nearly four hours of heated debate.

Democrats sought vainly to introduce affidavits from voters whose ballots were invalidated, but the speaker pro tem ruled it was too late to receive new evidence.

Air pressure in tires of cars that consistently carry more than a full-passenger load should be increased to take care of the additional weight.

**Where Atomic Bomb Was Test Fired**

Aerial view of the site near Alamogordo, New Mexico, where the atomic bomb was test-fired. The blast dug a shallow crater 300 ft. around the tower from which the bomb hung; seared sand into Jade green glass-like cinders (dark area) for 2,400 feet around the tower. Devastated area (light area) measures 4,800 feet in diameter. (NEA Telephoto)

**Force of Atomic Bomb Demonstrated**

Destructive might of the atomic bomb is shown in closeup of particles of seared sand (left) taken from the base of the tower from which the bomb was test-fired near Alamogordo, New Mexico. The intense heat fused the sand into jade green glass-like substance. Particles contained minute amounts of radio-activity. Dr. L. H. Hempelman (right), physicist at Washington university, St. Louis, Mo., uses Roentgenometer to measure radio-activity left in the sand after the test blast. He wears protective booties over his shoes to prevent his carrying off particles. (NEA Telephoto)

**Devastation And Death  
From Atomic Bomb**

By HOWARD W. BLAKESLEE  
Associated Press Science Editor

ALAMOGORDO, New Mexico,

Sept. 11.—(AP)—The fantastic facts about the atomic bomb crater, a saucer-shaped depression, 25 feet deep and a half-mile across, where the top quarter-inch of New Mexico's red-gray soil boiled and bubbled and then cooled into a carpet of jade and turquoise-colored glass, were released today.

A party of 31 writers and photographers, a dozen army officers and five scientists spent half an hour in the crater Sunday afternoon in the first public inspection. The group was led by Maj. Gen. Leslie R. Groves, head of the atomic bomb project.

The tour's purpose was dual. One, to tell the almost incredible story. Two, to show first hand that the facts do not bear out Japanese propaganda that apparently tried to lay the foundation for claims that Americans won the war by unfair means.

This New Mexico bomb was big, its effects comparable to those bombs dropped on Japan. What happened here was used purposely to avoid the chance that the actual bombings would inflict bizarre and non-military sufferings.

**Vegetation Wiped Away**

The great jade saucer lies in the center of a square of tall mountain ranges. It is smooth except at the center where there is a small, shallow bowl-shaped depression of red-gray earth where a boiling soil was blown completely away.

The center bowl is 300 feet across. Out beyond the rim of the great jade saucer is a ring where the earth was wiped bare of vegetation. This mile-wide ring was the complete annihilation center.

Beyond that signal wires five feet above the ground vaporized, their stubby poles were knocked down and the low desert bushes still lean outward as if the great atomic wind were blowing them.

Snakes were killed. Ground squirrels and other small animals died. A bat was found miles away, hanging apparently unharmed, but so shocked that it did not attempt to get away from men. There was the stench of death for about three weeks, all from small animals.

The atomic heat that boiled the earth's face is still a military secret. The British official report stated that it was millions of degrees at the center of the explosion.

The great crater is different than anything ever before observed.

ed. It was not made by gouging out and blowing away earth, except right at the base where a few score barrels of dirt were blasted out. This depression was made simply by pressure which pushed the solid earth straight down. The pressure also is a secret, except for the British official estimate that it was many millions times the 14 and one-half pounds per square inch pressure of the atmosphere.

No Dangerous Neutron Rays

General Groves and the scientists said that there were no dangerous neutron rays unless there may have been some in the flash itself. These rays traveled with the speed of light, and, in the main, did not travel as far as the death-dealing heat and pressure. The general explained that all bomb explosions have freakish results in spots and that atomic bomb are no exception. An example at Hiroshima was the Japanese unhurt on a concrete platform which was all that remained of a good-sized building. This man might well have suffered from blast injuries plain heat, falling debris or X-rays but none of them appear to have harmed him.

This New Mexico bomb was big, its effects comparable to those bombs dropped on Japan. What happened here was used purposely to avoid the chance that the actual bombings would inflict bizarre and non-military sufferings.

**Wood Alcohol Destructive**  
Wood Alcohol acts on the blood vessels and causes hemorrhages. It often destroys the tiny arteries of the retina of the eye, causing blindness.

**GIRLS! Do you  
suffer from  
Nervous  
Tension?**

On "CERTAIN DAYS" of the month  
? ? ?

Do functional periodic disturbances trouble you? Are you so jittery, irritable, cranky, tired—at such times? Then don't delay—try this great medicine—Lydia E. Pinkham's Vegetable Compound to relieve such symptoms. It helps NATURE!

Lydia E. Pinkham's Compound is famous not only for relieve such monthly pain but also accompanying nervous, restless, weak feelings of this nature. Taken regularly—it helps build up resistance against such distress. A very sensible thing to do!

Also a grand stomachic tonic! Follow label directions. Buy today!

Use of aluminum rivets in attaching brake linings eliminates the danger of scratching brake drums.

If aligning tests show worn parts which permit auto wheels to wobble, they should be repaired, even at the cost of a new bearing, or new king-pins and bushings.
